Among the factors that could cause the actual results to differ materially are industry conditions, prices of crude oil and gas, the Company's ability to obtain and the timing of new project, and changes in competitive factor. Should one or more of these risk or uncertainties materialize, or should the underlying assumption prove incorrect, actual outcomes could vary materially from those indicated

## **PGN Dapat Pasokan Gas 4.651 BBTU dari Blok Jabung, Amankan Kebutuhan Domestik**

Jakarta -- PT Perusahaan Gas Negara Tbk (PGN) mendapatkan tambahan pasokan gas dari PetroChina International Jabung Ltd (PCJL) sebesar 4.651 BBTU dari Blok Jabung. Tambahan pasokan gas ini untuk memenuhi kebutuhan pelanggan industri dan kelistrikan sesuai alokasi yang telah ditetapkan oleh pemerintah.

Titik serah gas dari Blok Jabung berada di Betara Gas Plant, Jambi. Pemanfaatan alokasi gas Jabung ini merupakan komitmen kedua belah pihak bersama dengan Pemerintah melalui SKK Migas, untuk mengamankan kebutuhan energi domestik. SKK Migas juga telah memberikannya agar alokasi pasokan dapat dimanfaatkan optimal.

Penandatanganan Perjanjian Jual Beli Gas (PJBG) untuk periode 1 Januari 2025 sd 31 Desember 2026, dilaksanakan oleh Direktur Komersial PGN Ratih Esti Prihatini dan Presiden Direktur PCJL, Wang Lei pada Jumat (10/1/2025).

“Tambahan pasokan gas dari Blok Jabung esensial bagi PGN di tengah tantangan pasokan gas pipa saat ini. PGN juga tengah aktif mengupayakan sumber-sumber pasokan gas lainnya. Hal ini dilakukan demi keamanan energi dan keberlanjutan industri sebagai penopang pertumbuhan ekonomi Indonesia,” ujar Ratih Esti Prihatini, (10/1/2025).

“Kami berkomitmen untuk menyediakan pasokan gas yang stabil ke berbagai wilayah di Indonesia. Sebelumnya, Petrochina dan PGN telah melakukan bekerja sama untuk kebutuhan Jargas .Kami berharap, kerja sama ini dapat melanjutkan manfaat bagi seluruh pihak,” ujar Wang Lei .

## **PGN Secures 4,651 BBTU Gas Supply from Jabung Block to Strengthen Domestic Energy Needs**

Jakarta – PT Perusahaan Gas Negara Tbk (PGN), Indonesia's leading natural gas company, has secured an additional gas supply of 4,651 BBTU from PetroChina International Jabung Ltd (PCJL), sourced from Jabung Block. This strategic move ensures the supply of natural gas to meet domestic industrial and power sector demands, aligning with the government's priorities for energy resilience and economic growth.

The gas will be delivered through the Betara Gas Plant in Jambi, underscoring the strong collaboration between PGN, PCJL, and Indonesia government through SKK Migas, to support a reliable domestic energy infrastructure. SKK Migas has also endorsed this allocation to maximize its utilization for domestic consumption.

The Gas Sales Purchase Agreement (GSPA), period from January 1, 2025, to December 31, 2026, was signed by Ratih Esti Prihatini PGN's Commercial Director and Wang Lei, President Director of PCJL, on January 10, 2025.

"The additional supply from the Jabung Block comes at a critical time for PGN as we address pipeline gas supply challenges. We are committed to securing alternative sources of gas to support energy security and sustain Indonesia's industrial growth, which is fundamental to the nation's economic development," said Ratih Esti Prihatini (10/01/2025).

"PetroChina Jabung is committed to providing stable gas supplies to support Indonesia's regions. Our partnership with PGN has consistently delivered reliable energy for city gas needs, and we look forward to continuing to deliver value to all stakeholders," remarked Wang Lei.
