This press release may contain forward-looking information based on current information and expectations of the Company that involve a number of risk, uncertainties, and assumptions. Among the factors that could cause the actual results to differ materially are industry conditions, prices of crude oil and gas, the Company's ability to obtain and the timing of new project, and changes in competitive factor. Should one or more of these risk or uncertainties materialize, or should the underlying assumption prove incorrect, actual outcomes could vary materially from those indicated

PGN Amankan Kesepakatan Strategis Pasokan Gas Bumi di IPA Convex 2026

Jakarta -- PT Perusahaan Gas Negara (Persero) Tbk (PGN) selaku Subholding Gas Pertamina terus memperkuat keberlangsungan penyaluran gas melalui serangkaian kesepakatan strategis pasokan gas bumi dan Liquefied Natural Gas (LNG) domestik dalam Indonesian Petroleum Association Convention & Exhibition 2026 (IPA Convex 2026) di Jakarta, Rabu (20/5).

Langkah ini merupakan bagian dari strategi jangka panjang PGN dalam menjaga keberlanjutan pasokan gas bumi, meningkatkan fleksibilitas penyaluran kepada pelanggan, sekaligus mendukung pertumbuhan kebutuhan energi nasional di tengah dinamika industri energi global.

Corporate Secretary PGN, Fajriyah Usman menyampaikan bahwa penguatan integrasi pasokan gas pipa dan LNG domestik menjadi langkah penting untuk menjaga keandalan penyaluran energi bagi pelanggan di berbagai sektor. "PGN terus memperkuat pengelolaan pasokan gas bumi secara terintegrasi melalui kombinasi pasokan gas pipa dan LNG yang bersumber dari dalam negeri. Strategi ini menjadi bagian dari upaya perusahaan dalam menjaga keberlanjutan penyaluran energi gas bumi sekaligus meningkatkan fleksibilitas pemenuhan kebutuhan pelanggan di berbagai wilayah," ujar Fajriyah.

Pada IPA Convex 2026, PGN menandatangani sejumlah kesepakatan strategis pasokan gas bumi, baik melalui optimalisasi lapangan domestik maupun pengembangan pasokan LNG jangka panjang. Untuk penguatan pasokan gas pipa domestik, PGN bersama pemasok gas bumi menandatangani:

- Amandemen Perjanjian Jual Beli Gas (PJBG) untuk perpanjangan kontrak pasokan gas bumi dari Wilayah Kerja (WK) Corridor untuk kebutuhan Bahan Bakar Gas (BBG) dan jaringan gas rumah tangga (Jargas);
- Perubahan dan Pernyataan Kembali PJBG untuk perpanjangan kontrak pasokan gas bumi dari Husky-CNOOC Madura Limited (HCML); serta
- Key Terms dengan Medco E&P Sakakemang untuk pembelian pasokan gas bumi dari Wilayah Kerja (WK) Sakakemang.

Among the factors that could cause the actual results to differ materially are industry conditions, prices of crude oil and gas, the Company's ability to obtain and the timing of new project, and changes in competitive factor. Should one or more of these risk or uncertainties materialize, or should the underlying assumption prove incorrect, actual outcomes could vary materially from those indicated

Sementara itu, untuk memperkuat fleksibilitas penyaluran melalui pasokan gas bumi berbasis LNG, PGN bersama Pertamina dan mitra strategis menandatangani:

- Head of Agreement (HoA) LNG South Hub;
- Head of Agreement (HoA) LNG North Hub; serta
- HoA pembelian LNG Abadi Masela

sebagai bagian dari pengamanan pasokan LNG jangka panjang.

Menurut Fajriyah, kombinasi pasokan gas berbasis pipa dan LNG dari berbagai sumber tersebut akan memperkuat kemampuan PGN dalam menyalurkan gas bumi ke pusat-pusat pertumbuhan ekonomi eksisting maupun wilayah pengembangan baru.

“Kerja sama ini semakin mempertegas peran PGN sebagai integrator infrastruktur dan pasokan gas bumi nasional. Melalui pengelolaan pasokan yang terintegrasi, PGN bersama Pertamina Group berupaya menjaga keandalan energi nasional sekaligus mendukung pertumbuhan ekonomi dan transisi menuju energi yang lebih rendah emisi,” tutup Fajriyah.

Tentang PGN

PT Perusahaan Gas Negara (Persero) Tbk (PGN) merupakan Subholding Gas Pertamina yang bergerak di bidang transmisi dan distribusi gas bumi serta pengembangan infrastruktur dan layanan energi gas bumi terintegrasi di Indonesia. PGN mengelola lebih dari 95% infrastruktur gas bumi hilir nasional untuk mendukung ketahanan energi dan transisi energi Indonesia. PGN juga menguasai lebih dari 90% pasar niaga gas bumi di Indonesia.

PGN Secures Strategic Natural Gas Supply Agreements at IPA Convex 2026

Jakarta -- PT Perusahaan Gas Negara (Persero) Tbk (PGN), as Pertamina's Gas Subholding, continues to strengthen the sustainability of gas distribution through a series of strategic agreements for the supply of domestic natural gas and Liquefied Natural Gas (LNG) at the Indonesian Petroleum Association Convention & Exhibition 2026 (IPA Convex 2026) in Jakarta, Wednesday (20 May).

This initiative forms part of PGN's long-term strategy to ensure the sustainability of natural gas supply, enhance distribution flexibility for customers, and support the growth of national energy demand amidst the dynamics of the global energy industry.

PGN's Corporate Secretary, Fajriyah Usman, stated that strengthening the integration of domestic pipeline gas and LNG supplies is a crucial step in ensuring the reliability of energy distribution for customers across various sectors. "PGN continues to strengthen the integrated management of natural gas supplies through a combination of pipeline gas and domestically sourced LNG. This strategy forms part of the company's efforts to ensure the sustainability of natural gas supply whilst enhancing flexibility in meeting customer needs across various regions," said Fajriyah.

At IPA Convex 2026, PGN signed a number of strategic natural gas supply agreements, both through the optimisation of domestic fields and the development of long-term LNG supply. To strengthen domestic pipeline gas supply, PGN, together with natural gas suppliers, signed:

- An Amendment to the Gas Sales and Purchase Agreement (GSPA) for the extension of the natural gas supply contract from the Corridor Work Area (WK) to meet the needs of Compressed Natural Gas (CNG) and the domestic gas network (Jargas);
- Amendments and Restatements to the GPA for the extension of the natural gas supply contract from Husky-CNOOC Madura Limited (HCML); and
- Key Terms with Medco E&P Sakakemang for the purchase of natural gas supplies from the Sakakemang Work Area (WK).

Meanwhile, to strengthen distribution flexibility through LNG-based natural gas supplies, PGN, together with Pertamina and strategic partners, signed:

PRESS RELEASE

Date : May 20, 2026

Corporate Secretary : Fajriyah Usman (T : +62 85883308686, E : fajriyah.usman@pertamina.com)

This press release may contain forward-looking information based on current information and expectations of the Company that involve a number of risk, uncertainties, and assumptions. Among the factors that could cause the actual results to differ materially are industry conditions, prices of crude oil and gas, the Company's ability to obtain and the timing of new project, and changes in competitive factor. Should one or more of these risk or uncertainties materialize, or should the underlying assumption prove incorrect, actual outcomes could vary materially from those indicated

- Head of Agreement (HoA) for the LNG South Hub;
 - Head of Agreement (HoA) for the LNG North Hub; and
 - HoA for the purchase of Abadi Masela LNG
- as part of securing long-term LNG supplies.

According to Fajriyah, the combination of pipeline-based and LNG gas supplies from various sources will strengthen PGN's ability to distribute natural gas to existing economic growth centres as well as new development areas.

"This collaboration further reinforces PGN's role as an integrator of national natural gas infrastructure and supply. Through integrated supply management, PGN, together with the Pertamina Group, is striving to maintain national energy reliability whilst supporting economic growth and the transition towards lower-emission energy," concluded Fajriyah.

About PGN

PT Perusahaan Gas Negara (Persero) Tbk (PGN) is Pertamina's Gas Subholding, engaged in natural gas transmission and distribution, as well as the development of integrated natural gas infrastructure and energy services across Indonesia. PGN manages more than 95% of the nation's downstream natural gas infrastructure, playing a strategic role in supporting Indonesia's energy security and energy transition initiatives. PGN also holds more than 90% market share of Indonesia's gas trading.
