This press release may contain forward-looking information based on current information and expectations of the Company that involve a number of risk, uncertainties, and assumptions. Among the factors that could cause the actual results to differ materially are industry conditions, prices of crude oil and gas, the Company's ability to obtain and the timing of new project, and changes in competitive factor. Should one or more of these risk or uncertainties materialize, or should the underlying assumption prove incorrect, actual outcomes could vary materially from those indicated

PGN Strengthens Natural Gas Supply through Gas Sales and Purchase Agreement from Tungkal Block

Jakarta – PT Perusahaan Gas Negara (Persero) Tbk (PGN), as Pertamina's Gas Subholding, has signed a Gas Sales and Purchase Agreement (PJBG) with Mont D'Or Oil Tungkal Limited (MOTL/MontD'Or) from the Tungkal Working Area (WK Tungkal) in Jambi. Under this agreement, PGN will receive a gas supply of 5.45 BBTUD for the 2026–2034 period, which will subsequently ramp down gradually through 2040.

The PJBG for the Tungkal Block was signed by PGN Commercial Director Aldiansyah Idham and MontD'Or General Manager Hendra Jaya, witnessed by the Head of SKK Migas Djoko Siswanto on Monday (31/08/2026).

PGN expressed its gratitude to the Ministry of Energy and Mineral Resources (ESDM), SKK Migas, and other stakeholders for their support in enabling PGN to secure additional natural gas supplies to strengthen domestic energy security.

Aldiansyah also extended his appreciation to MontD'Or for the partnership and shared synergy formalized through this agreement.

"This collaboration represents an important and strategic step in our efforts to strengthen the utilization of national natural gas as a reliable, competitive, and sustainable energy source," he stated.

This agreement provides certainty regarding the off-take of natural gas from the Tungkal Block and plays a vital role for PGN in maintaining supply reliability for customers. Located in Central Sumatra, the Tungkal Block will be integrated into PGN's existing infrastructure across Sumatra Island.

PGN reaffirmed its commitment to strengthening the domestic natural gas supply by integrating sources from both piped gas and LNG. This measure ensures uninterrupted natural gas service to support industrial, commercial, small business, and household needs.

"We hope the collaboration between SKK Migas, gas producers, especially MontD'Or, and PGN will extend beyond the Tungkal Block supply to other strategic partnerships. We are
